## Education

### University of Texas at Arlington

*Honors Bachelor of Science in Software Engineering*

**Aug. 2022 – Present**

*Arlington, Texas*

## Experience

### Komplete Packaging KPAK

*Business and IT Support Analyst Intern*

**Aug 2025 – Present**

*Arlington, Texas*

- Provide IT support by diagnosing and resolving hardware, software, and network issues for end-users.
- Analyze business processes and collaborate with teams to recommend technology-driven improvements.
- Configure, monitor, and maintain enterprise systems to ensure reliable and secure operations.
- Manage user accounts, access controls, and security permissions in alignment with company policies.

### The American Domino Company

*Design / Print Associate*

**June 2025 – Present**

*Arlington, Texas*

- Designed and printed custom artwork on domino tiles using digital printing hardware and software tools.
- Collaborated with production team to ensure accurate design placement and consistent color quality.
- Operated and maintained digital printing machines, optimizing print output and reducing material waste.
- Performed quality control checks to verify artwork alignment, color accuracy, and compliance with client specifications.

## Projects

### Pakistan Student Association Website | *Node.js, Tailwind CSS, Vercel, Framer Motion*

**January 2025**

- Developed and deployed a responsive web application to centralize PSA event details and organizational updates.
- Integrated RSVP event listings, Stripe for payments, and a contact form to streamline user interaction.
- Achieved 400+ user engagements within the first month of launch, increasing event participation and communication.
- Deployed using Vercel with continuous integration for seamless updates and optimized performance.

### MavPads — Student Housing Web App | *Node.js, Tailwind CSS, MongoDB, Clerk, Vercel*

**April 2025**

- Built a full-stack web app to help UTA students explore and review off-campus housing options around campus.
- Integrated MongoDB for scalable data storage and efficient querying of apartment listings and user reviews.
- Designed a clean, responsive UI with Tailwind CSS, focusing on ease of navigation and mobile compatibility.

## Achievements

### 2nd Place – MoodSong – AI-Powered Wellness Web App | *HackDAY UTA 2025*

**March 2025**

- Developed a full-stack wellness web app that uses facial expression recognition to recommend mood-based songs using Gemini AI.
- Integrated a real-time community forum feature, enabling users to share feelings, support others, and build emotional connections.
- Utilized Node.js for backend logic, MongoDB for data storage, and Tailwind CSS for responsive and modern UI design.

## Technical Skills

**Languages:** Java, C, HTML/CSS, JavaScript, SQL, Typescript

**Technologies/Tools:** VS Code, Eclipse, Google Cloud Platform, Android Studio, Postman, React, Node.js, Next.js, CorelDraw

## Leadership / Extracurricular

### PLTL Leader (Peer Led Team Learning)

*MATH 1426 (CALC I)*

**January 2023 – May 2025**

*University of Texas at Arlington*

- Facilitated weekly collaborative learning sessions, supporting over 40 students throughout multiple semesters.
- Helped students strengthen problem-solving and analytical skills, improving engagement and understanding of complex mathematical concepts.

### Pakistan Student Association

*General Secretary*

**August 2024 – May 2025**

*University of Texas at Arlington*

- Led and organized 10+ cultural and social events, managing logistics, marketing, and team operations.
- Increased student engagement and cultural awareness through impactful campus-wide initiatives.
